

SOUNDPROOF / WEATHERPROOF
LIGHTING TOWER DIESEL GENERATOR
CONT. OUTPUT: 10KVA
MAX. OUTPUT: 11KVA

SPECIFICATION

Maximum Height	8 Meters
Method of Raising	Manual
Mast Section	3
Lights Bar Steering System	270° Manual Operation
Mask Lifting System	Vertical Mechanical
Brake System	Mechanical Brake Parking
Dry Weight	700 kg

LAMP

Total Power of Lamps	4 x 1000W
Type of Lamp	LED (White light)
Frequency	60Hz
Working Temperature	-30°C to +50°C
Connection Protection Index	IP66

ALTERNATOR

Model	164B
Type of Alternator	Synchromous
Voltage	220/127V-Three Phase
Frequency	60Hz
Power Factor	1.0 Lagging
Insulation Class	H
Mechanical Protection	IP23

ENGINE

Make/Type	QC385D Diesel Engine
Number of Cylinder	3
Cooling System	Water-cooled
Rate Power	15HP
Engine Speed	1800R.P.M.
Starting System	Electric Start
Compression ratio	18 : 1
Battery	12V x 24Ah
